

# Navigators Discipleship Tool

*The purpose of Bible study is to be challenged and encouraged by studying and applying God's Word to our everyday lives. Here's a practical approach to applying the Bible to change your life:*

## How to Apply Scripture to Your Everyday Life

- 1 Verse:**  
Write out the verse or passage.
  - 2 Truth:**  
Use your own words to state the truth of the verse.
  - 3 Need:**  
Honestly assess your own life in relation to the truth of Scripture. What area of need does God's Word expose in your life?
  - 4 Intent:**  
State a specific change you want to implement in your area of need. Keep the action simple.
  - 5 Checkup:**  
State how you will accomplish the goal you have set. You may want to put a reminder on your calendar or share your application with a trusted friend who will hold you accountable.
- Pray that God will use this resource in your own life. Be reassured God is conforming you to Christ's image and He will complete what He started.
